

**Participants of the International BACC II Conference (as of 10 September 2012)
Tallinn, 6-7 September 2012**

Kaspar Anderson
Ministry of the Environment, Estonia

Robert Aps
University of Tartu, Estonian Marine Institute, Department of Marine Systems, Estonia

Elena Averbukh
Institute of Cybernetics, Laboratory of Wave Engineering, Estonia

Armineh Barkhordarian
Helmholtz-Zentrum Geesthacht GmbH, Germany

Lars Barring
Swedish Meteorological and Hydrological Institute – SMHI, Sweden

Irina Baykova
University of Management and Economics, Russia

Franz H. Berger
Deutscher Wetterdienst, Meteorologisches Observatorium Lindenberg, Germany

Dace Berzina
Riga City Council, City development department, Latvia

Sabine Billerbeck
Helmholtz-Zentrum Geesthacht GmbH, Germany

Anna Bolek
Institute of Meteorology and Water Management, Maritime Branch in Gdynia, Poland

Irena Borzenkova
Russian State Hydrological Institute Climatology, Russia

Dennis Bray
Helmholtz Zentrum Geesthacht GmbH, Germany

Sonja Deppisch
HafenCity Universität Hamburg, Stadtplanung u. Regionalentwicklung, Plan B:altic, Germany

Martin Drews
Danish Meteorological Institute, Danish Climate Centre, Denmark

Maris Eesalu
Tallinn University of Technology, Institute of Cybernetics, Estonia

Martin Ekman
Summer Institute for Historical Geophysics, Åland Islands, Finland

Jüri Elken
Tallinn University of Technology, Marine Systems Institute, Estonia

Malgorzata Falarz
University of Silesia, Dept. of Climatology, Poland

Tom Frisk
Pirkanmaa Regional Environment Centre, Finland

Barbara Früh
Deutscher Wetterdienst, Climate and Environment Consultancy, Germany

Mathias Gadegast,
Leibniz-Institut für Gewässerökologie u. Binnenfischerei Berlin (IGB), Germany

Marie-Jose Gaillard-Lehmdahl
Linnaeus University, School of Natural Sciences Building Kalmarsundslab, Sweden

L. Phil Graham
Swedish Meteorological and Hydrological Institute, Sweden

Jari Haapala
Finnish Meteorological Institute, Finland

Hans-Christen Hansson
Stockholm University, Department Of Applied Environmental Science, Sweden

Christoph Humborg
Stockholm University, Dept.of Applied Environmental Science, Sweden

Hans-Jörg Isemer
Helmholtz-Zentrum Geesthacht GmbH, Germany

Jaak Jaagus
University of Tartu, Dept. of Geography, Estonia

Reeli Jakobi
Ministry of Environment, Climate and Radiation, Estonia

Liisi Jakobson
University of Tartu, Estonia

Holger Janßen
Leibniz-Institut für Ostseeforschung Warnemünd IOW, EUCC, Germany

Milla Johansson
Finnish Meteorological Institute FMI, Finland

Tõnu Karu
Tallinn EU Office, Estonia

Enn Kaup
Tallinn University of Technology, Institute of Geology, Estonia

Jukka Käyhkö
University of Turku, Department of Geography and Geology, Finland

Sirje Keevallik
Tallinn University of Technology, Marine Systems Institute, Estonia

Inna Koit
Estonian Meteorological and Hydrological Institute Databases Department, Estonia

Silke Köppen
Helmholtz-Zentrum Geesthacht GmbH, Germany

Madli Kopti
University of Tartu, Estonian Marine Institute, Estonia

Pirkko Kortelainen
Finnish Environment Institute, SYKE, Finland

Andres Kratovits
University of Tartu, Estonian Marine Institute, Estonia

Olaf Krüger
Tartu University, Estonia

Joachim Krug
Federal Research Institute for Rural Areas, Forestry and Fisheries, Institute for World Forestry, Germany

Maria Laamanen
Helsinki Commission – HELCOM, Finland

Mikko Laapas
Finnish Meteorological Institute, Finland

Liisi Labo
Estonian Meteorological and Hydrological Institute Hydrological Department, Estonia

Tomasz Łabuz
University of Szczecin, Institute of Marine and Coastal Sciences, Poland

Marcus Lange
Helmholtz-Zentrum Geesthacht GmbH, Germany

Johanna Laurila
Helsinki Commission - HELCOM, Finland

Andreas Lehmann
GEOMAR-Helmholtz-Zentrum für Ozeanforschung Kiel, Germany

Lykke Leonardsen
KØBENHAVNS KOMMUNE, Teknik- og Miljøforvaltningen, Denmark

Taavi Liblik
Tallinn University of Technology, Marine Systems Institute, Estonia

Andris Locmanis
Riga City Council, City development department, Latvia

Andres Luhamaa
University of Tartu, Estonia

Aarne Männik
Estonian Meteorological and Hydrological Institute, Estonia

Grit Martinez
Ecologic Institute Berlin, Germany

Elina Miettunen
Finnish Environment Institute, Marine Research Centre, Finland

Anders Moberg
Stockholm University Department of Physical Geography and Quaternary Geology, Sweden

Kai Myrberg
Finnish Environment Institute – SYKE, Finland

Maxi Nachtigall
Council of the Baltic Sea States, CBSS- Baltic 21, Sweden

Tadeusz Niedzwiedz
University of Silesia, Branch of Kraków, Dept. of Climatology, Poland

Pekka Niemelä
University of Turku, Department of Biology, Finland

Kalle Olli
University of Tartu, Institute of Ecology and Earth Sciences, Estonia

Anders Omstedt
Göteborg University Earth Sciences Center-Oceanography, Sweden

Taimi Paljak
Estonian Meteorological And Hydrological Institute, Forecasting Department, Estonia

Ove Pärn
Tallinn University of Technology, Marine Systems Institute, Estonia

Katri Pindsoo
Tallinn University of Technology, Institute of Cybernetics, Estonia

Andrzej Podscianski
Chief Inspectorate of Environmental Protection, International Cooperation, Poland

Arno Põllumäe
University of Tartu, Estonia

Piia Post
University of Tartu, Institute of Environmental Physics, Estonia

Minna Pyhala
Helsinki Commission – HELCOM, Finland

Anna Pyrh
Estonian Meteorological and Hydrological Institute, Hydrology Department, Estonia

Marcus Reckermann
Helmholtz-Zentrum Geesthacht GmbH, Germany

Michael Richter
HafenCity Universität Hamburg, Stadtplanung u. Regionalentwicklung, plan B:altic, Germany

Rein Rootamas
Tallinn University of Technology, Estonia

Anna Rutgersson
Uppsala University, Dept. Earth Sciences, Sweden

Ivo Saaremäe
Estonian Meteorological And Hydrological Institute, Estonia

Frederik Schenk
Helmholtz-Zentrum Geesthacht GmbH, Germany

Tarmo Soomere
Tallinn University of Technology, Centre of Nonlinear Studies, Institute of Cybernetics,
Estonia

Martin Stendel
Danish Meteorological Institute, Danish Climate Centre, Denmark

Adolf Stips
CEC Joint Research Center, Institute for Environment and Sustainability, Italy

Ülo Suursaar
University of Tartu, Estonian Marine Institute, Estonia

Marzenna Sztobryn
Institute of Meteorology and Water Management, Hydrological Forecast Office, Poland

Gerd Tarand
Eesti Noorteühenduste Liit, noortepoliitika juht, Estonia

Birger Tinz
German Meteorological Service, Marine-Climatological Monitoring Centre, Germany

Harri Tolvanen
University of Turku, Department of Geography, Finland

Hannes Tõnisson
Tallinn Universtiy, Institute of Ecology, Estonia

Heikki Tuomenvirta
Finnish Meteorological Institute, Finland

Markku Viitasalo
Finnish Environment Institute SYKE, Marine Research Centre, Finland

Kairi Vint
Estonian Meteorological and Hydrological Institute, Weather observations, Estonia

Maija Viska
Tallinn University of Technology, Institute of Cybernetics, Estonia

Hans von Storch
Helmholtz-Zentrum Geesthacht GmbH, Germany

Valery S. Vuglinsky
Russian State Hydrological Institute, Russia

Ilppo Vuorinen
University of Turku, Archipelago Research Institute, Finland

Joanna Wibig
University of Lodz, Dept. of Meteorology and Climatology, Poland

Andrzej Witkowski
University of Szczecin, Faculty of Natural Sciences, Poland
